

Program for Environmental Health (MSc)

Course	Credit
Medical Information Technology	1
Research Methodology in Health Sciences	2
Environmental Health Readings (English)	3
Ecotoxicology	2
Handling of Advanced Instrumental Methods in Analysis of Pollutants	2
Project	2
Water Resources development Management	4
Materials and Energy Recovery System	4
Solid Waste Management	4
Evaluating the development in Environment	2
Planning Water Treatment Plant	4
Controlling Air Pollution	2
Planning Waste water treatment Plant	4
Industrial Waste water Management	2
Internship	2
Global Effects of Air Pollution	2
Thesis	6
